

José Marcelo Carvalho Filho

Cloud & Infrastructure Engineer | SRE

Palm Bay, FL, USA • (321) 387-2446 • jmcarvalho05@hotmail.com • jmarcelocarvalho.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Cloud & Infrastructure Engineer with 3+ years managing Linux/Windows production systems delivering high-reliability cloud operations across multi-tenant environments. Led multi-platform deployments and large-scale migrations, achieving a 30% reduction in turnaround time and consistent 90%+ SLA compliance. Strengths include incident response, root-cause analysis, automation pipeline development, and hands-on technical leadership. Currently based in the United States and actively seeking Cloud/Infrastructure Engineer roles in Spain — open to EU Blue Card sponsorship and relocation assistance.

PROFESSIONAL EXPERIENCE

Atlantic.Net | Managed Support Supervisor / Shift Lead & Training Officer

10/2025 – Present

- **Leadership:** Supervise and direct support engineering staff, assigning tasks and monitoring team performance metrics.
- **Client Support:** Resolved escalated customer issues maintaining professional relationships with a customer-centric focus.
- **Training:** Coached team members, improving ticket resolution time by 25% and standardizing workflows across the team.
- **Technical:** Performed lift-and-shift and platform migration projects, reducing cutover time by 20%; created automated deployment workflows cutting project completion time by 30%.

General Electric Vernova (via Capgemini) | Reliance Engineer

03/2025 – 10/2025

- **Automation:** Automated Linux patch lifecycle management for RHEL 8 and Oracle Linux 7 across 50+ production VMs using Python and Bash, reducing maintenance windows by 30% and increasing patch compliance to 95%+.
- **Operations:** Supported real-time EMS/SCADA infrastructure with strict uptime and high-availability requirements for power transmission monitoring platforms.
- **Reliability:** Deployed fixes and patches on live operational systems while minimizing service disruption in production environments.
- **Virtualization:** Managed enterprise VMware vSphere/ESXi infrastructure including capacity planning, VM lifecycle, and zero-downtime migrations.

Atlantic.Net | Systems Administrator & Escalations Specialist

09/2023 – 03/2025

- **Technical:** Managed 1,200+ Linux and Windows production servers in multi-tenant cloud environments, maintaining 90%+ SLA compliance and improving incident response times.
- **Automation:** Built OS modernization pipelines (CentOS 7 → Ubuntu 22.04 / AlmaLinux) using Ansible, reducing manual intervention by 60% and eliminating configuration drift.
- **Migrations:** Led migration of 100+ production websites from legacy hosting to Atlantic.Net cloud infrastructure with cPanel-to-cPanel transfers, MySQL replication, and 2-hour controlled cutover windows.

NOTABLE PROJECTS

- **Private Cloud Lab:** Deployed production-grade OpenStack multi-node cluster with Ceph RBD backend, VxLAN overlay networking, tenant isolation, floating IPs, and Heat orchestration templates.
- **Portfolio Site (AWS):** Dockerized Flask portfolio site (Nginx reverse proxy) hosted on AWS EC2 with GitHub Actions CI/CD, Let's Encrypt SSL/TLS, and S3 backup automation.
- **Password Manager:** Python/Tkinter desktop app with AES-256 encryption, TOTP-based MFA, and GPG-protected credential export; packaged as a Windows executable.
- **S3 Backup Automation:** Bash + AWS CLI backup pipeline with S3 lifecycle policies and automated retention/rotation.

TECHNICAL SKILLS

Cloud	AWS (EC2, S3, IAM, VPC), OpenStack
IaC / Automation	Terraform (in progress), Ansible, Python, Bash
Containers	Docker, Kubernetes
Operating Systems	RHEL, Ubuntu, AlmaLinux, CentOS, Windows Server
Databases	MySQL, MSSQL, PostgreSQL, MongoDB
Monitoring	Prometheus, Grafana, Alertmanager, Zabbix, Wazuh
Networking	TCP/IP, DNS, VLANs, Load Balancing, VPN, Firewall
DevOps	GitHub Actions, CI/CD pipelines, Nginx, Apache
Security	SIEM, WAF, Hardening, Security+

LANGUAGES

Portuguese	Native
English	Full professional proficiency (C2)
Spanish	Full professional proficiency (C1) — primary target market: Spain
Italian	Professional working proficiency (B2)

CERTIFICATIONS

2026	AWS Certified Cloud Practitioner
2025	CompTIA Cloud+
2024	Microsoft SC-900 (Azure Security Fundamentals)
2023	CompTIA Security+
2022	CompTIA A+
In Progress	HashiCorp Terraform Associate AWS Solutions Architect Associate

EDUCATION

Faculdades Integradas de Itapetininga (FII-FKB) — Bachelor of Laws (LL.B.), Political Science
Brazil | Degree obtained in Brazil; professional equivalency recognized under EU academic frameworks.

RELOCATION & VISA

Actively seeking employment in Spain (preferred: Málaga, Barcelona) or Portugal. Requires EU Blue Card sponsorship and relocation support. Eligible and fully prepared to relocate within 3–6 months of offer. Native Portuguese speaker with full professional Spanish proficiency — no language barrier.
