WORK EXPERIENCE

Atlantic.Net | System Administrator – Escalations Specialist | 09/2023 – Present

- Customized and deployed Windows and Linux systems tailored to each customer's specific needs, ensuring peak performance and satisfaction.
- Performed comprehensive security monitoring using OpenVAS and Nessus as a key member of the Incident Rapid Response Team.
- Executed thorough patch management across hundreds of systems, achieving compliance with GDPR, PCI DSS, and HIPAA standards.
- Delivered extensive support to developers and DBAs, and managed diverse customer environments across both Windows and Linux platforms.
- Documented troubleshooting procedures, reducing issue resolution times by 30% and equipping support staff with valuable knowledge and skills.
- Provided support to web developers and database administrators (DBAs), managing mixed OS customer environments.
- Configured and administered networks for both Linux and Windows systems, ensuring seamless connectivity and robust security measures.
- Assisted the configuration and troubleshooting of Multi-Factor Authentication (MFA) and Virtual Private Networks (VPNs), enhancing security protocols and ensuring reliable remote access.
- Deployed and managed hundreds of both dedicated and cloud-based pfSense and OpnSense firewalls, improving standard procedures thus reducing turnaround time by 30%.
- Experienced in setting up and tuning MS SQL, PostgreSQL, and MySQL servers. Responsible for troubleshooting issues such as high availability, resource exhaustion, and more.

Atlantic.Net | Help Desk Technician | 12/2022 – 09/2023

- Delivered top-tier customer service via phone and email, effectively troubleshooting and escalating inquiries as necessary, ensuring seamless communication between clients and various departments, which significantly improved customer retention.
- Performed comprehensive troubleshooting on Windows and Linux systems for both dedicated and virtualized environments.
- Reduced ticket resolution time by 20% by streamlining processes using Jenkins and other resources and documentation.

- Actively contributed to projects related to application testing and deployment, including firewalls, virtual machines, Docker containers, and SIEM servers. Managed email accounts, remote access services, and secure web access.
- Provided remote support to over 1,200 users with over 90% efficiency using Sysadmin commands.
- Compiled and presented technical reports to a 5-member management team, leading to an upgrade of the IT department.
- Supervised the remote installation of security patches on over 400 machines during off hours within 5 weeks of employment.

São Paulo Judiciary Branch, Brazil | Law Clerk Supervisor | 11/2013 – 07/2022

- Assembled and managed a team of 4 law clerks and 2 law interns responsible for drafting decisions, memorandums, and judicial sentences from August 2019 to July 2022 on behalf of a state judge.
- Structured and delegated daily, weekly, and monthly tasks for staff, improving communication, workflow, and achieving an average of 720 monthly rulings (a 40% improvement).
- Conducted over 100 research projects in multiple law practice areas, increasing the local judicial branch database by 100% and reducing the backlog of cases by 35%.
- Coordinated the Center for Conflict Resolution in São Miguel Arcanjo/SP for 18 months, achieving a 90% settlement rate, reducing the number of active lawsuits from 14,000 to 11,000 (20% decrease).
